

UNH Nursing Program Administered by UNH Durham Campus Effective January 2009

Effective with spring 2009 semester, the nursing program of the University of New Hampshire at Manchester will be administered by the College of Health and Human Services on the Durham campus. The College of Health and Human Services will continue to offer courses at UNH Manchester to support students completing the Bachelor of Science in Nursing (registered nurse baccalaureate program).

Here is how the relocation of program administration affects current students. Students who had been admitted to the program at UNH Manchester will become Durham campus students and must work with their Durham faculty advisors for any matters related to their academic programs. Questions concerning financial aid, student accounts and tuition, and graduation certification will be handled by Durham campus faculty and professional staff.

Prospective students should contact the University of New Hampshire Admissions Office at 603-862-1360.

Questions concerning this change in program administration should be directed to:

Department of Nursing
Hewitt Hall
4 Library Way
Durham, NH 03824-3563
